LECTURE AND SUPERVISED PLAY (*For Beginners and Intermediate Players*)

A short lecture (about 45 minutes) on useful conventions, how to play a contract and how to defend a contract, precedes the supervised play each week. This is an excellent opportunity to learn duplicate Bridge or enhance your Bridge skills in a comfortable environment. The topics are not usually dependent on attendance at previous lectures, so students may join in at any time. Lectures are given by Busaba Han and other qualified guest lecturers. Several experienced Bridge players are usually on hand to assist with the supervised play.
